Highlights

Net profit after tax was \$46.1m. This was flat year-on-year on a reported basis, but up 3.1%* year-on-year on an operating basis.

Revenue was up 7% year-on-year to a record \$123m, underpinned by ongoing strength in the Classifieds (up 14% YoY to \$68m) and a stellar result from Trade Me Motors. The three classified businesses now contribute 55 per cent of Trade Me's revenue.

Revenue growth in General Items has continued but has slowed, up 1% year-on-year to \$35m. In our Other segment, our payments and advertising businesses have had strong starts to the year.

Total expenses increased 9% year-on-year. Excluding cost of sales, expenses were up 6% year-on-year.

EBITDA** was \$79m, and up 6%* year-on-year on an operating basis. Earnings per share for H1 F18 was 11.6 cents.

A fully imputed interim dividend of 9.1 cents per share will be paid on 20 March 2018, up from 8.5 cents last year.

We have continued to make core product improvements to deliver strategic and financial benefits across many areas of the business. Highlights include the rollout of dealer analytics in Motors, the beta launch of candidate profiles in Jobs, rental estimates in Property and the launch and uptake of Afterpay in Marketplace.

Our proposed acquisition of the Christchurch-based inventory management system for car dealers – Motorcentral – is still awaiting NZ Commerce Commission clearance.

Looking ahead to the end of F18, there is no change to our previously stated ambition for year-on-year EBITDA and operating NPAT growth, but at a lower rate than in F17 due to targeted investment.

For F19 and beyond, we are well-positioned to grow and defend our existing businesses. We will continue to invest to strengthen our trust and relevance with the New Zealand public, and to make the most of the opportunities in front of us.

* Growth rates exclude one off non-operating gains in H1 F17 of \$1.4m.

** EBITDA represents earnings before income taxes, excluding interest income, interest expense, depreciation and amortisation, as reported in the financial statements.

Commentary from the Chairman and CEO

Dear Shareholders,

Thank you for your support as Trade Me investors. We have delivered a solid F18 interim result, with record revenue. This is in line with the guidance we provided at our results announcement in August 2017 and our Annual Shareholder Meeting in November 2017.

The numbers

For the six months to 31 December 2017, Trade Me delivered revenue of \$122.7m, up 6.8 per cent from \$114.9m in the first half for F17.

Net profit after tax was \$46.1m. This was flat year-on-year on a reported basis, but up 3.1 per cent year-on-year on an operating basis, due to a one-off benefit of \$1.4m, in F17.

Earnings per share was 11.6 cents. We intend to pay a fully imputed interim dividend of 9.1 cents per share on 20 March 2018, ahead of the 8.5 cent dividend we paid a year ago. The record date for the dividend is 9 March 2018.

Operating performance

We are focused on building a better business and delivering growth.

We are pleased to see the continued success of the **Classifieds** as they delivered another excellent result, with revenue up 13.8 per cent year-on-year to \$67.9m, and we are pleased to report an acceleration in growth from 9.9 per cent year-on-year growth reported in H1 F17. All three businesses delivered revenue growth, after a continued focus on generating premium revenue and improving our products.

Trade Me Motors, the largest of our classified verticals, reported a superb result headlined by a revenue increase of 16.0 per cent year-on-year. We've seen dealer premium revenue increase by 43.2 per cent year-on-year and record inventory levels. Product highlights included our new analytics tools for dealers, and the price estimation guide for consumers launched in November.

Trade Me Jobs continued its excellent performance, with revenue increasing by 18.6 per cent year-on-year, off the back of a buoyant employment market. The increase was driven by premium revenue (up 46.8 per cent year-on-year), and underpinned by a series of product releases, including the introduction of 'promoted listings' as a premium product in July 2017. The team is excited about the roll-out of candidate profiles (in beta since November 2017), and a complementary candidate database tool that is helpful for recruiters and employers looking for active and passive job hunters.

It was pleasing to see **Trade Me Property** report revenue growth of 6.0 per cent, in a soft listings market. Agent for sale premium revenue has increased 25.7 per cent year-on-year. We have improved our branding for property professionals onsite, and now have 6,830 agents signed up to our OneHub agent portal. We've also seen sessions on Trade Me Property increase by 6 per cent year-on-year, underpinned by the launch of rental estimates for

1.2 million properties in November 2017. Our domestic unique audience visiting our sites and apps is up 9 per cent year-on-year.

Revenue in the **General Items** marketplace business was up 0.7 per cent year-on-year and gross merchandise sales (GMS) nudged up 0.3 per cent year-on-year. As we reported in November 2017, the GMS trend for used goods has been tracking down slowly (down 2.6 per cent year-on-year), but was once again more than offset by the continued strength of GMS for new goods (up 5.0 per cent year-on-year).

We are working hard to stimulate stronger growth in our marketplace, focusing on new goods, improving our core experience and building preference for Trade Me. The Afterpay instalment payment option launched in September 2017 is now available on over 60 per cent of new goods onsite, we've completed our first subscription shipping experiment, rolled out 'Quick list' functionality in the iOS and Android apps and held two success fee-free weekends.

This month we also announced changes to the way we calculate success fees for professional retailers, as we strive to encourage our larger sellers to provide buyers with great shipping offers and price certainty. Overall listings are up 25 per cent year-on-year, driven by increased selection of new items.

In the **Other** category comprising our advertising, insurance, payments and other small businesses, headline revenue was down 3.2 per cent year-on-year. This decline is primarily due to the divestment of Travelbug and BookIt in December 2016. Our payments and advertising businesses have started F18 strongly, with revenue up 7.8 per cent and 6.5 per cent respectively.

In the first half of F18, we've seen total expenses, including cost of sales, increase by 9.2 per cent year-on-year. Excluding cost of sales, expenses were up 5.9 per cent year-on-year. Last year we foreshadowed our desire to invest at a rate slightly above revenue growth this year. We have investment plans focussed on strengthening our competitive advantages and expect to see a modest acceleration in expense growth in the second half of F18.

Investments & divestments

We are still awaiting clearance from the Commerce Commission about our proposed acquisition of Motorcentral, a business based in Christchurch that provides a highly regarded inventory management system to car dealers. We applied for clearance from the Commission in July 2017.

We switched off our escrow payment service SafeTrader in July 2017, due to lack of use and the availability of payment products onsite in the form of Buyer Protection, Ping and Pay Now that provide safety for all members when buying or selling items on Trade Me.

Brand

We rolled out the second iteration of our 'Life Lives Here' brand campaign in November 2017, as we nurture and grow our brand. In July we were ranked eighth in the Ipsos Most Influential Brands survey, and in September we were named New Zealand's sixth most loved brand by Colmar Brunton.

We were proud to be nominated for a Māori Language Award for our efforts in and around Māori Language Week in September 2017. This included providing te reo as a language option, and the introduction of macrons onto Trade Me. We have also lent our support – and banner space – to the anti-domestic violence technology known as Shielded. The shield allows victims of domestic abuse to get information and help without any trace showing in their search history.

Our Trust & Safety team released our fifth annual Transparency Report in July 2017, providing our community with insights into how we work with government agencies to keep our website trusted and safe. We also made the call to ban the sale of brachycephalic dog breeds in January 2018, attracting a lot of media attention and support for this decision.

People

The number of FTEs at Trade Me grew from 514 at 30 June 2017 to 564 at 31 December 2017. We will continue to strengthen our team's presence in Christchurch over the course of F18.

We made several changes to the Executive team in July 2017, following on from Annie Brown joining us as our first Chief People Officer in June. These changes saw Alan Clark (Head of Trade Me Motors) and Jeremy Wade (Head of Trade Me Jobs) join the Executive team, reflecting the scale and importance of these classifieds' businesses. Trent Mankelow was appointed as our inaugural Chief Customer Officer, having been Trade Me's Chief Product Officer since October 2014.

And in September, Mark Rees joined the Exec as our new Chief Product and Technology Officer. His role is to deliver on tech and product priorities, bringing together our product development, data and technology platforms.

At Board level, Simon West was elected as an independent director at the Trade Me shareholder meeting in November 2017, having been appointed to the Board earlier in the financial year. Chairman David Kirk was also re-elected, along with director Joanna Perry.

Outlook

The first half of the F18 financial year has broadly tracked to our expectations.

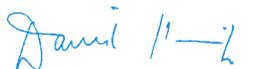

New real estate listings to market were slow throughout the first half of F18, and this has impacted Trade Me Property revenue. On the flipside, Trade Me Motors and Trade Me Jobs have both continued to perform extremely well.

We reiterate our November 2017 guidance that we expect total revenue growth in F18 to be similar to that reported in F17 – however the soft property listing market means there is some continued uncertainty.

We will continue to invest at a rate slightly above revenue growth in F18 (but not a return to the rates of F14–F16). We expect to deliver year-on-year EBITDA and operating NPAT growth in F18, albeit at lower growth rates than F17 due to the higher level of investment.

Trade Me is a great business. We are well-placed to convert on the opportunities in front of us and keep growing – both in our core business and through extending into new things. We will continue to work hard to capture these opportunities.

Yours sincerely

David Kirk

Notes to the financial statements for the six months ended 31 December 2017

1 General information

Trade Me Group Limited (the “Company”) is a company incorporated and domiciled in New Zealand, registered under the Companies Act 1993 and listed on the New Zealand Stock Exchange (“NZX”) and the Australian Stock Exchange (“ASX”). The Company is a FMC Reporting Entity under the Financial Markets Conduct Act 2013. The address of its registered office and primary place of business is Level 5, 2 Market Lane, Wellington, New Zealand.

The interim consolidated financial statements comprise the Company and its subsidiaries (together referred to as the “Group”).

The interim consolidated financial statements are for the six months ended 31 December 2017 and have been prepared in accordance with NZ GAAP. Trade Me Group Limited is a profit oriented entity.

The nature of the operations and principal activities of the Group are to provide online marketplaces that connect people to undertake a transaction or form a relationship. The Group’s businesses include providing a new and used goods marketplace, classified advertising for motor vehicles, real estate and employment, online advertising services and other ancillary online businesses.

2 Basis of preparation and accounting policies

The accounting policies applied to the preparation of the consolidated interim financial statements are consistent with those followed in the preparation of the Group’s annual financial statements for the year ended 30 June 2017.

These general purpose consolidated interim financial statements for the six months ended 31 December 2017 have been prepared in accordance with NZ IAS 34 Interim Financial Reporting and IAS 34 Interim Financial Reporting.

These consolidated interim financial statements do not include all the notes of the type normally included in an annual financial report and should be read in conjunction with the audited financial statements of the Group for the year ended 30 June 2017.

The financial statements are presented in New Zealand dollars and all values are rounded to the nearest thousand dollars (\$000’s).

3 Segment reporting

(a) Identification of reportable segments

The Group has determined its operating segments based on the reports reviewed by the Group’s Chief Executive Officer to assess performance, allocate resources and make strategic decisions. The reportable segments are based on aggregating operating segments based on the similarity of the services provided.

The Group’s reportable segments are as follows:

Classifieds

The Classifieds segment represents advertising revenue from each of our three classified advertising sites: Motors, Property and Jobs. Revenue is generated primarily from basic and premium listing fees.

General Items

The General Items segment is our online marketplace business. Revenue is generated from listing fees, premium fees and success fees and performance is driven by both the number of completed transactions and the total sales value of completed transactions.

Other

The Other segment reflects all other businesses, including advertising, dating, payments, travel, life and health insurance comparison, and general insurance.

(b) Segment revenues, EBITDA* and reconciliation to profit before income tax

The following is an analysis of the Group’s revenue and EBITDA* by reportable segment.

Operating Segments

	Revenue		EBITDA*	
	31 December 2017 \$'000	31 December 2016 \$'000	31 December 2017 \$'000	31 December 2016 \$'000
Classifieds	67,891	59,654	46,119	40,533
General Items	35,393	35,163	24,324	26,173
Other	19,419	20,061	8,356	7,968
Total	122,703	114,878	78,799	74,674
Non-operating items			-	1,416
			78,799	76,090
Reconciliation to overall result				
Share of losses from associates			(290)	(413)
EBITDA*			78,509	75,677
Depreciation and amortisation			(12,617)	(10,164)
Finance income			775	682
Finance costs			(2,661)	(2,766)
Profit before income tax			64,006	63,429

*EBITDA reflects earnings before interest, tax, depreciation and amortisation.

The accounting policies of the reportable segments are the same as the Group's accounting policies as outlined in the annual financial statements for the year ended 30 June 2017.

Segment revenue reported above represents revenue generated from external customers. Immaterial inter-segment revenues have been excluded from the above segment results.

The assets and liabilities of the Group are reported to and reviewed by the Chief Executive Officer in total and are not allocated by operating segment. Therefore, operating segment assets and liabilities are not disclosed.

The Group operates largely within New Zealand. The Group owns an Australian subsidiary, Motorweb Australia Pty Limited, which generates revenues in Australia, and the Group has international sellers generating revenues overseas, largely in the marketplace business. Revenues from foreign countries amounted to \$5.2m for the six months ended 31 December 2017 (2016: \$4.0m).

No single customer contributed 10% or more to the Group's revenue for the six months ended 31 December 2017 (2016: nil).

4 Earnings per share

The earnings and weighted average number of ordinary and restricted shares used in the calculation of basic and diluted earnings per share are as follows:

	Unaudited 31 December 2017 \$'000's	Unaudited 31 December 2016 \$'000's
Earnings used for the calculation of basic and diluted earnings (\$'000's):	46,074	46,109
Weighted average number of shares on issue ('000's)	397,050	397,120
Basic and diluted earnings per share (cents)	11.60	11.61

Basic earnings per share amounts are calculated by dividing Group profit for the six month period by the weighted average number of ordinary and restricted shares outstanding during the period. Diluted earnings per share equals basic earnings per share, since there are no potentially dilutive ordinary shares.

5 Dividends

	Unaudited 31 December 2017 \$000's	Unaudited 31 December 2016 \$000's
Final dividend for 2017 at 10.0 cents per share (2016: 9.0 cents per share)	39,698	35,738
Dividends declared after reporting date, but not recorded as a liability in these financial statements: 9.1 cents per share (2016: 8.5 cents per share)	36,152	33,759

6 Interest bearing liabilities

The Group has a \$166 million revolving cash advance loan facility with Commonwealth Bank of Australia (70%) and Westpac Banking Corporation (30%). \$136 million was drawn down as at 31 December 2017.

Description	Maturity Date	Unaudited 31 December 2017	Audited 30 June 2017
Tranche 1	11 December 2018	83,000	83,000
Tranche 2	11 December 2019	53,000	53,000
Loan establishment costs		-	(43)
Total interest bearing liabilities		136,000	135,957

The facility is guaranteed by the Company and its wholly owned subsidiary Trade Me Limited. The covenants entered into by the Group require specific calculations of the Group's net debt to EBITDA, and interest cover. There have been no covenant breaches.

The drawn down portion of the facility incurs interest based on market floating rates that are re-set every 90 days.

Interest-bearing loans and borrowings are initially measured at fair value, less directly attributable transaction costs. After initial recognition, interest bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Loans and borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

7 Financial instruments

Fair values

Financial instruments included in these financial statements include cash and cash equivalents, trade and other receivables, trade and other payables, interest bearing loans and borrowings, and derivative financial instruments (being solely interest rate swaps). The carrying amounts of these financial instruments are a reasonable approximation of their fair values.

Interest rate swaps are classified as “fair value through profit or loss” and are categorised into one of three levels based on the quality of inputs used to determine fair value:

- Level 1 – quoted prices in active markets for identical assets or liabilities
- Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs)

Interest rate swaps are classified as level 2.

The fair value of interest rate swaps has been determined using observable market interest rate data as at balance date.

Refer to below table, which shows movements in the fair value of interest rate swaps:

	Unaudited 31 December 2017 \$000's	Unaudited 31 December 2016 \$000's
Changes in fair value of interest rate swaps recognised in finance costs	–	418
Effective portion of changes in fair value of cash flow hedges recognised in other comprehensive income	154	619
Gain in fair value of interest rate swaps	154	1,037

8 Subsequent events

As outlined in note 5, on 27 February 2018, the directors declared a dividend of \$36,152,000, which is not recorded as a liability in these interim financial statements.

In the Group's financial statements for the year ending 30 June 2017, it was noted on 11th July 2017, the Company entered into a conditional agreement to purchase Limelight Software Limited, trading as Motorcentral (motorcentral.co.nz), a cloud-based dealer management platform for motor vehicle dealers. This acquisition is still awaiting clearance from the Commerce Commission.

Review Report to the Shareholders of Trade Me Group Limited (“the company”) and its subsidiaries (together “the group”)

We have reviewed the interim financial statements on pages 6 to 13, which comprise the statement of financial position of the group as at 31 December 2017, and the statement of comprehensive income, statement of changes in equity and statement of cash flows of the group for the six month period ended on that date, and a summary of significant accounting policies and other explanatory information.

This report is made solely to the company’s shareholders, as a body. Our review has been undertaken so that we might state to the company’s shareholders those matters we are required to state to them in a review report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company’s shareholders as a body, for our review work, for this report, or for our findings.

Directors’ Responsibilities

The directors are responsible for the preparation and fair presentation of interim financial statements which comply with New Zealand Equivalent to International Accounting Standard 34: *Interim Financial Reporting* and for such internal control as the directors determine is necessary to enable the preparation and fair presentation of the interim financial statements that are free from material misstatement, whether due to fraud or error.

Reviewer’s Responsibilities

Our responsibility is to express a conclusion on the interim financial statements based on our review. We conducted our review in accordance with NZ SRE 2410 *Review of Financial Statements Performed by the Independent Auditor of the Entity*. NZ SRE 2410 requires us to conclude whether anything has come to our attention that causes us to believe that the financial statements, taken as a whole, are not prepared in all material respects, in accordance with New Zealand Equivalent to International Accounting Standard 34: *Interim Financial Reporting*. As the auditor of the group, NZ SRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial statements.

Basis of Statement

A review of interim financial statements in accordance with NZ SRE 2410 is a limited assurance engagement. The auditor performs procedures, primarily consisting of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures.

The procedures performed in a review are substantially less than those performed in an audit conducted in accordance with International Standards on Auditing (New Zealand). Accordingly we do not express an audit opinion on those financial statements.

Other than in our capacity as auditor we have no relationship with, or interests in, the group.

Conclusion

Based on our review nothing has come to our attention that causes us to believe that the accompanying interim financial statements, set out on pages 6 to 13, do not present fairly, in all material respects, the financial position of the group as at 31 December 2017 and its financial performance and cash flows for the six month period ended on that date in accordance with New Zealand Equivalent to International Accounting Standard 34: *Interim Financial Reporting*.

Our review was completed on 27 February 2018 and our findings are expressed as at that date.
